- PROCEDURE:** Goats were immunized with CHO Phospholipase B-Like 2 (PLBL2) of recombinant origin and antiserum were collected. The antibody was immunoaffinity purified off an antigen containing immunosorbent. Antibody concentration was determined using an absorbance at 280 nm: 1.4 equals 1.0 mg of IgG.
- SPECIFICATIONS:** This antibody reacts with CHO Phospholipase B-Like 2 (PLBL2) of recombinant origin and PLBL2 secreted by a null CHO cell line as determined by ELISA and western blot. Optimal working dilutions should be determined experimentally by the investigator.
