

PRODUCT PROFILE

PRODUCT: Agarose Immobilized Rabbit anti-S-tag

CATALOG NUMBER: RES-145D-Z

LOT NUMBER:

QUANTITY:

PHYSICAL STATE: Liquid Suspension (~50% slurry)

BUFFER: PBS, pH 7.2

PRESERVATIVE: 0.09% sodium azide

STORAGE: 2 - 8° C

EXPIRATION: 12 months after shipment date.

PROCEDURE: Rabbits were immunized with highly purified S-tag peptide conjugated to KLH and the resulting antiserum was collected. Antibody was immunoaffinity purified off a peptide containing immunosorbent then coupled to agarose beads. Antibody concentration was determined prior to agarose coupling using an absorbance at 280 nm: 1.4 equals 1.0 mg of IgG.

SPECIFICATIONS: This antibody reacts with S-tag as determined by IEP and ELISA techniques. It is suitable for immunoprecipitation. Optimal working dilutions should be determined experimentally by the investigator.
